Aftermath

Tahiti 80

I first saw it when you were smiling I could tell something was wrong And the way you were laughing It just lasted too long As if you were trying hard To pretend everything was fine When I knew deep in my heart That it was all just falling apartLet's run away from the path We used to take each day And then we'll face the aftermath Of our yesterdaysIs it me or are we really Going out of our minds? I'd never thought I would be Somebody not so kind I don't want to bring you down But there's no one else around It's like walking in a ghost town Or living six feet under groundLet's run away from the path We used to take each day And then we'll face the aftermath Of our yesterdays That's what I'd love to say I know I'll find a wayLet's run away from the path We used to take each day And then we'll face the aftermath Of our yesterdays
