Entourage

Omarion

Shh

Girl, girl, girl, girl, girl, girl

All I can say is

Girl, girl, girl, girl, girl, girl, girl

Let's goI don't need nobody else around, see

Love the way you compliment my style

Though you may end up bein' my only girl

'Cause when you're with me you're my whole worldLike when it's just me and you

Vibe is crazy between us two

You're my homie, my lover indeed and my friend

Now I said this before, I'ma say it againNow here is the situation, I like what we've got happenin'

And I don't want nothin' comin' in between both me and you

I'll let you be lieutenant if you let me be captain

Tell me if that's coolBaby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chickBaby, I want you to be my entourage

If you want then we could take this very far

Super fly chickYou're a star in your own right

At times you steal the whole spotlight

I don't mind, girl, you're fine, put a smile on my face

Besides who want a chick that no dude would chaseSometimes I know you're unsure

Wonder if this will endure

Don't make me make no promise that I can't keep

'Cause it's cool how it is, let's not complicate things, girlHere is the situation, I like what we've got happenin'

And I don't want nothin' comin' in between both me and you

I'll let you be lieutenant if you let me be captain

Tell me if that's coolBaby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chickBaby, I want you to be my entourage

If you want then we could take this very far

Super fly chickYou're a star, that you are

Be my girl, share my world

Come on girl, super fly chickBaby, I want you to be my entourage

Super fly chick

You could be my personal superstar

Super fly chickBaby, I want you to be my entourage

If you want then we could take this very far

Super fly chick
