

God's Kingdom

[Eric Bibb](#)

Woke up this morning soon - singing this song
Don't you know the words came to me in a dream so strong
Song said: we got to shout the good news and heed the call
People, let's spread the word - Hallelujah! - God's Kingdom is in us all
This ole world's in a fix - something's
not right
Ev'rywhere you look either war is raging or someone's looking for a fight
Right now, we got to shout the good news 'til the walls tumble and fall
People, let's spread the word - Hallelujah! - God's Kingdom is in us all
Brother don't wait another minute - the
hour's getting late
Don't you know it's high time for love - to conquer all hate
Don't hesitate 'cos we got shout the good news - no time to stall!
Let's spread the word - Hallelujah! - God's Kingdom is in us all
Sisters help the menfolks learn to forgive -
peace is the way
Let's walk the talk and teach our children - every day
With one voice we got to shout the good news in the schools & the meeting halls
People, let's spread the word - Hallelujah! - God's Kingdom is in us all
