Uncle Mountain

The Fire Theft

I can hear you talking, we're doing all the walking
I'm stuck here in the middle at war with good and evil
I can hear you talking, I'm doing all the walking now
What strange your advice will believing you can flyRhythm of mind, don't wanna spend my time
Being afraid of dyin', I really wanna do good
I drown in a world of pity and sorrow
Been immersed within the light
What was I looking to find, run alone to the seaI want love if love wants me, I want God if God wants me
Just can't hold on to what I believe
