You're the Same

Leslie Phillips

You're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesYou're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesFeelings like the desert sands
Shift with the whisper of the wind
Now I feel so close to You
Then I feel so far againYou're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesYou're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesMonths of heartache, weeks of joy
Days that are somewhere in between
You're the timeless hope I hold
In a world of fading dreamsAnd Jesus, Your power
To work in our lives remains the same
'Cause You are mighty
You are mightyYou're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesYou're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesYou're the same forever
Yesterday or today, You will love me this way
'Cause Your heart never changesYou're the same
