

The First Time

Scooter

The first time, I've ever seen this place
The first time, I ever saw your face
The first time, I've ever seen this place
The first time, I ever saw your face
The first time, I've ever seen this place
The first time, I ever saw your face
The first time

The first time, I've ever seen this place
The first time, I ever saw your face
The first time, I've ever seen this place
The first time, I ever saw your face
The first time, I've ever seen this place
The first time, I ever saw your face
The first time
