Condemned to Hell

Gamma Ray

Advisory - the following lyrics contain explicit language:

[Music by: Zimmermann / Lyrics by: Zimmermann]Come get some!Oppression deadly reign
Madmen gone insane
They hate and bring us pain
Bloodlust in their eyes
Getting high on torture cries
They hate and terrorize
They sacrificeThey try to break my will
They claim the right to kill
My world is standing still
I`m lost in hell
They try to make me right
A prisioner no reason why
All I try is to survive
The world`s demiseChained in darkness - Screaming for the light!
Killing pain to save my life[Chorus]
Condemned to hell - I`m facing the end of my days
Condemned to hell - Their torches are burning
Condemned to hell - My freedom will burn at the stake
Condemned to hell - The dark age returningThey don`t care, they close their eyes
Kick away our human rights
A world dehumanized
Now tell me... how many gave their lives?
How many have to die?
Killed by official lies
With stars and stripesPain and anger - Killing all the light!
Darkness comes... eternal night[Chorus]
Condemned to hell - I`m facing the end of my days
Condemned to hell - Their torches are burning
Condemned to hell - My freedom will burn at the stake
Condemned to hell - The dark age returningChained in darkness - Screaming for the light!
Killing pain to save my life[Chorus]
Condemned to hell - I`m facing the end of my days

Condemned to hell - Their torches are burning
Condemned to hell - My freedom will burn at the stake
Condemned to hell - The dark age returningCondemned to hell
Condemned
[Repeat 3 times]Hell! Hell!
[Repeat `till the end]
