Do They Turn You On

The Whispers

Oooohoo ooohooooo
Hey baby, how you been
Have you been happy with your so called friends
Tell me do they warm your feet in bed
Work their fingers to the bone to earn your daily bread
Do they turn you on all night till dawn
Do they turn you on now do they
Do they bring out the freak in you and satisfy
you like I do all night long, do they

Listen sweet meat, I'm not here to fuss
But I can't let cheap gossip come between us
I'm whispering in one ear, your friends in the other
Please answer me this before your mind gets too cluttered
Do they turn you on all night till dawn
Do they turn you on now I said do they
Do they bring out the freak in you and satisfy
you like I do all night long, do they

Lady please try to look ahead, you'll face
a cold and empty fate. Girl stop being this mad
Follow your own head baby,
ooooh go on and use your own mind
Follow the straight and narrow finding
Cupid's arrow that will lead you to me
Do they turn you on all night till dawn
Do they turn you on now I said do they
Do they bring out the freak in you and satisfy
you like I do all night long, do they

Oooohoooo, ooooohoooo
I really mean every word I'm bout to say to you baby
All of you that I see pleases me, every inch of
your body to your personality
So undo you hair baby while I blow in your ear
Kiss you anywhere that pleases you dear
And after six days of love-making my sweet
On the seventh day I'll rest where your two legs meet
Do they turn you on all night till dawn

Do they turn you on now I said do they
Do they bring out the freak in you and satisfy
you like I do all night long, do they
Do they kiss away the problems in your lovely, sexy head
And after the loving girl do they bring you breakfast,
lunch, and dinner in bed
Do they, do they really love you like I do
