The Little Things

Charity

Floating on the wind of His song
Where I like it, where I like it
The sun will rise, the sleepy moon lay down
As He willed it, as He willed itIt's the little things, it's the little things
It's the little things, the little things I see
It's the little things, it's the little things
It's the little things that are making me believeMetal and wood in traction
He walked yesterday, he walked yesterday
The yellow car raced past at 85
And they're still alive, and they're still aliveIt's the little things, it's the little things
It's the little things, the little things I see
It's the little things, it's the little things
It's the little things that are making me believeIt's the little things You bring
It's the little things You bringIf I run as fast as I can to nowhere
I'm stopped just in time
I'm stopped just in timeThe ocean laps 10,000 times a day
And I can pray, and I can pray
The birds have breakfast, lunch and dinner too
And I love You, and I love YouIt's the little things, it's the little things I see
It's the little things that are making me believeIt's the little things You bring
It's the little things You bring
It's the little things You bring
It's the little things
