Do You Know

Cimorelli

She sits alone on the roof
For the third time this week
As she's shivering
She can barely speak
And she says
Is there someone out there for me?
Cause i'm waiting here so patiently

Do you know what it's like on your own
When there's nobody home
Watch the sunset alone
Do you know what it's like to sing a song
All the notes come out wrong
And you wish to yourself
That someone comes around
But nobody comes around

Another lonely night
She knows how this story ends
Trying not to care
But she just can't pretend
And lately she's been lost
Searching for someone
And she asked herself
Where did I go wrong?
(where did I go wrong?)

Do you know what it's like on your own
When there's nobody home
Watch the sunset alone
Do you know what it's like to sing a song
All the notes come out wrong
And you wish to yourself
That someone comes around
But no one comes around

But then hours have past
She knows he's not calling back
It's breaking her down
It's breaking her down

But she knows that someone's gotta come around

Sunday night she's sitting at her roof at home
Doesn't wanna watch another sunset alone

Do you know what it's like on your own
When there's nobody home
Watch the sunset alone
Do you know what it's like to sing a song
All the notes come out wrong
And you wish to yourself
That Someone comes around
But no one comes around
