Under the Radar

Erica Buettner

They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
Im just trying to get mine
Living my life
Stained from the grind
Been hustlin so long my life
But still they try to bring me down,ohhhhh
But they don?t really know that
Ive been watching them close like a satellite
But they don?t really know that
Ill be standing in the crowd in my camoflauge
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
I can see it in their eyes
Envy on their eyes ,still im not surprised

You know im strong enough to take them hard times
I aint about about to give it up,ohhhhh
But they don?t really know that
Ive been watching them pulse with my third eye
But they don?t really know that
You can never change the blue print of my life
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar

So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar(radar,radar,radar)
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
So I lay low,lay low
They never see me coming under the radar
