

Mad Sounds (live at Hultsfred Festival)

Arctic Monkeys

Mad sounds in your ears, they make you feel alright
They bring you back to life
Mad sounds in your ears, they make you get up and dance
They make you get up
Yeah they make you get up Love buckles under the strain of those wild nights
Run but you cannot hide
Mad sounds in your ears, they make you get up and dance
They make you get up
All night long they reappear
They make you get up and dance
Yeah they make you get up Suppose you've gotta do what you gotta do
We just weren't feeling how we wanted to
You sit and try sometimes but you just can't figure out what went wrong
Then out of nowhere somebody comes and hits you with an
Ooh la la la, ooh la la la
Ooh la la la ooh
Ooh la la la, ooh la la la
Ooh la la la ooh You got those mad sounds in your ears to make you get up and dance
Mad sounds in your ears, they make you get up and dance
They make you get up
