The Running Range

The Go! Team

We got the rally on the run
Now people show us something we can do
Got the message, got the gun
We're not the kinda girls he gives intoSo we say it's alright
Say it all the time
Say it's alright
Say it all the timeWe got the people in the know
We got the guarantee to get jumping
Got the feeling, got the flow
So now we really talk about somethingAnd we say it's alright
Say it all the time
Say it's alright
Tripping on the lineGoing for the distance
Going for the speed
Going for the motion
But we never know what's realAcross the divide
'Til they decide
They're gonna set you freeWe put the meaning in the world
We put the fire in the connection
Got them bringing on the turn
And never take a different directionNow we say it's alright
Say it all the time
Say it's alright
Say it all the timeWe got a million on the line
We got the kinda thing you can't let go
Made it better by design
And set the strategy from the get goNow we say it's alright
Say it all the time
Say it's alright
Tripping on the lineGoing for the distance
Going for the speed
Going for the motion
But we never know what's realAcross the divide
'Til they decide
If they're gonna set you freeSay it's alright
Say it all the time
Say it's alright
Say it all the timeGoing for the distance
Going for the speed

Going for the motion
But we never know what's realAcross the divide
'Til they decide
If they're gonna set you free
Tonight, tonight, tonight, tonight
