

Tangerine (Alternate Version)

Mansions

tangerine
your..... on losing teeth acting like your on seventeen
and i heard you cry
when you were spitting to my eye said its been eating you up inside
you up inside
and i know its hard to be alone
everyone is scared of showing people who they are i know everyone knows if you let them in they'll break your
heart
but you are worthless and if your playing, play it safe yea play it cool
while you run away from everything
i don't ever envies you
change your heart
