

Blaque Out

Blaque

I never thought that our love was going
to be something really special. That you were going to love me how I love you.
When the love comes and knocks the doors from your heart you called me and now
my love is you. Chorus

Because I love you I want you I need you my love
You're really the only thing I'm always thinking of.
Because I love you I want you I need you my love
You're truly the one I'm dreaming for and my reason to live.
