The World Needs Guts

Alice Cooper

Hey you
Fighting for your life where you've never fought before
Hey you
Running from the scene and nailing down your doorOh yeah, back 'em off, brother
Oh yeah, terminate the mother now
You know you gotta get hardThe world needs guts, the world needs power
Show me some blood, show me some cuts, show me some scars
The world needs guts, the world needs usHey you
Crying 'cause your best friend's splattered against the wall
Hey you
Some maniac butcher's tryin' to hack away your ballsOh yeah, back 'em off, brother
Oh yeah, terminate the mother now
You know you gotta get hardThe world needs guts, the world needs power
Show me some blood, show me some cuts, show me some scars
The world needs guts, the world needs usHey, hey, what's in your eyes? I think I'm getting through
Say, say that you despise the things they did to you
Pray, pray some day their throats are in your hands
Take them, shake them 'til they understandHey you
You gonna let some scumbag stab you in the back
Hey you
Turn around kicking and rearrange your sackOh yeah, back 'em off, brother
Oh yeah, terminate the mother now
You know you gotta get hardThe world needs guts, yeah they need more power
Show me some blood, show me some cuts, show me some scars
The world needs guts, the world needs usYeah, we need more power
Show me some blood, show me some cuts, show me some scars
The world needs us, the world needs gutsYeah, we need more power
Show me some blood, show me some cuts, show me some scars
Show me some guts, the world needs us
