

# Let Freedom Rock

## Vinnie Vincent Invasion

(Vinnie Vincent)

Heavy metal cry heard around the world

Rebel yell we shout out loud

We got your rock--we'll guard your soul

We're the law and we lay it down

Do or die I love it

Right or wrong I need it

We're gonna rock you

We live for love and glory

And die for what we know is truth

### CHORUS

We're gonna let it rock

Let freedom rock

Let, let it rock

Let freedom rock

Let, let freedom rock

Land of the free and the brave

We're gonna let it rock

So proudly we hail at dawns' early light

To the shores of Tripoli

We're b.a.d. balls to the wall

No mercy for the enemy

Shout out loud: fair warning

Shout out loud: fair warning

We're gonna rock you

Young thunder never dies

In blood we sign on the dotted line

We plead united--we are the rock of ages

We are the hammer of the gods

Rejoice our victory--it's celebration day

Freedom ring loud and be proud

REPEAT CHORUS
