

Wash Away

Revive

Float down stream, rivers of dreams
Float down stream, catch your wings
 Heavens high, so you fly
 Catch your dreams in the sky
But the glaciers have frozen your feet
 I can't wait for eternity
And so you watched me wash away
 But maybe we'll catch up someday
 Maybe well catch up someday
 Sun sinks out of view
 Stars they shine changing hue
But bright lights have blinded your sights
 They cant adjust when day turns to night
 And so you watched me wash away
 But maybe well catch up someday
 The castles we built were so tall
 They only left us further to fall
 And still I see them far away

But maybe we'll come back someday
 Maybe we'll come back someday
 Float down stream, rivers of dreams
 Float down stream, catch your wings
 The castles we built were so tall
 They only left us further to fall
 And still I see them far away
 Maybe well come back someday
 The castles we built were so tall
 They only left us further to fall
 And still I see them far away
 As I watch them wash away
 Wash away
 Wash away
 Wash away
 Wash away
