It Feels Like Home

Gavin Creel

I hear your key in the door unlocking more than wood
The ceiling may not be dry yet, but it feels like home
Yes, we have come from a long way
Friends say wrong way still
I only know when you hold me, it feels like home

We donâ€™t need a dining room table
So far thereâ€™s no one to invite
For me a cardboard box will do just fine
as long as Iâ€™m with you each night

It seems to me if you never risk youâ€™ll never win
And since weâ€™re in this together
It feels like home

We donâ€™t need a dinning room table
So far thereâ€™s no one to invite
For me a cardboard box will do just fine
As long as Iâ€™m with you each night

Yes, we have come from a long way
Friends say wrong way still
I only know when you hold me, it feels like home

Feels like home
Feels like home
