

Thanks

David S Theroff

When I was young, you had taught me
Many things, I didn't understand
I had dreams and expectations
You were trying to make me a man

I remember the last time we talked
You had so many things to say
I wrote everything down
Still have it all to this day

I remember when I got the call
You finally went on your way
I'm glad this had happened
Some may think its a sad thing to say

I was sad when I couldn't make it
Didn't know what to do
I wanted to say thanks
So I wrote this down for you
