Let It Sleep

Asking Alexandria

Heaven's gone and hell is here
There's nothing left for you my dear
So grab a glass and pour a drink
Learn to swim before you sinkGo
I can't remember the last time I smiled
God it's been a while
So much hate I've held inside
Behind these eyes there's a devil inside
Behind these eyes there's a devil insideLife's too short for you to die
Ignore the lows make sure you're high
And don't you ever look backLet it sleep, let it sleep, let it sleep
I've almost given up
Oh God I know I'm fuckedSomething is just not right
I need to leave this place
Out of mind, out of sight
My evil thoughts can't hide
And I am trapped in my own mind, own mind
There's not a thing you can do
You're fucked and I am too
There's not a thing you can do
You're fucked and I am tooTrapped in hell I'm all alone
With my sins staring through my soul
I guess there's no way out
Let it sleep, let it sleep
And beg he won't wake up
Let it sleep, let it sleep
Oh God I know I'm fuckedPray for death
Nothing left for you to live for
Sick of your god damn lies
Hiding behind dead eyes
I never needed you
No god above, no hell below me
Screaming but no one's there
Praying that someone cares
No one believes in you
Still alive but barely breathing
Stabbing me in the back
I never asked for that
Drinking away your pain

Taking everything for granted
I hate youSomething is just not right
I need to leave this place
Out of mind, out of sight
My evil thoughts can't hide
And I am trapped in my own mind, own mind
There's not a thing you can do
You're fucked and I am too
There's not a thing you can do
You're fucked and I am tooI can't remember the last time
I can't remember the last time I smiled
I can't remember the last time
