Tonight

Concrete Blonde

Walking on a cloud to another shore A luminous and beautiful promise of more Tonight I'll be with you Tonight I'll be with you Dancing through space The pearly-gray moon is wearing your face Walking through time And tonight I'll be with you Tonight I'll be with you Oh I have no choice I follow Oh I hear your voice Swinging on a star Flying around This is so bizarre, maybe I better come down Tonight I'll be with you Tonight I'll be with you Let's go planet hopping Through the universe There's no stopping us Where to first? Tonight I'll be with you Tonight I'll be with you
