

# Holiday

## Jessie Baylin

I came all the way from Nashville  
Just to have you break my heart  
You came all the way from Memphis  
Where every ending gets its startI wish you well  
    I'm looking for a holiday  
    I'm looking for a holiday  
        I wish you well  
        I'm looking for a holiday  
Some peace in this worldGiving up on expectations  
    Cause they only bring you down  
    I took the high road, left you laughing  
It felt so good to hear the soundI wish you well  
    I'm looking for a holiday  
    I'm looking for a holiday  
        I wish you well  
        I'm looking for a holiday  
Some peace in this world  
Some peace in this world
