

Starlight

[Andy Gibb](#)

Starlight , summer nights
Don't leave me here alone to die
Someone , somewhere cried Oh Starlight , oh in my eyes
Too far away to see the lights
Drifters , drifting by Now you've come back again
And I ain't over it yet
Please won't you walk with me
Talk with me
Starlight , yeah Starlight , oh winter nights
The snow has come and love has gone
Now I'm feeling cold
Yeah , yeah , yeah , yeah Starlight , oh in my eyes
Too far away to see the lights
And I'm growing so old Now you've come back again
And I ain't over it yet
Please won't you walk with me
Talk with me
Starlight Now you've come back again
And I ain't over it yet
Please won't you walk with me
Talk with me
Starlight
