Sometimes You Have To Ask Yourself

Mxpx

Never quite just knew how to get it through
The utilitarian, sloganeerian minds
And it's time to stand up and redefine the lines, right now
Compartmentalizing isn't realizing
Because it's not affecting change in the real world
So get on with your life and get over mine
There's only one world but there's many different tastes
So enjoy, don't employ your state
Common goals, communicate to contemplate
The way things are and why
Don't pawn the status quo problems off on the other guy
You're a celebrity in your own world
Catch phrases, only catching cobwebs
Spiritualized, capital gain and wealth
Isn't the means to the end, isn't the end itself
Manifest individuality, manifest a sense of reality
Because it's non exclusive, don't be so elusively blind
Things are never what they seem
You don't know what you'll find right now
