

Leather God

[DeWolff](#)

She says its love
When she, pass me like a ghoul
She puts her soul into it all
I believe she is a leather godGod is in this guy
When I close my eyes
I gotta run but I don't wanna move
I believe she is a leather godShe takes my mind
Creature of the night
Bright light I gotta look away
I believe she is a leather godWell I know a place in town
All the people look up and say
The lowest side of the heart
But I gotta get there some daySweet lonely dreams
When she appears
Shimmers like bells in my mind
I believe she is a leather godBlack cellar love
Black coffee mug
When she puts her soul into it all
I believe she is a leather godI believe she is a leather god
I believe she is a leather god
I believe she is a leather god
