quality control

Corrupted Morals

They've swept up the rubbish
And took out the garbage
No more noise pollution in the air
Just smog
Well, sooner than later under the radar
We started a revolution off the air, so sign off
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your QC [Incomprehensible]
They've cleared up the channels
Program and progress
If you haven't noticed you have just been whored
And turned out
Behind the receiver
The silver deceiver
Well, we ain't bending over anymore
We've tuned out
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your QC [Incomprehensible]
Goin' to bed with an industry death wish
On an idol less pillow, sleeping with the fish
The lottery winners they're all talkin'
But sayin' nothin' and soon they'll be walkin'
They've swept up the rubbish
And took out the garbage
Program and progress
If you didn't notice
Sooner than later, under the radar
We're starting a revolution off the air
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control
C.C. I've got your quality control

C.C. I've got your QC [Incomprehensible]
