

Imma Shine

Youngbloodz

I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it I'mma shine, I'mma make it
It ain't nothing to it, to it, I'll take it
I feel it, I'll flip it
Pull it, pull it till straight get it I'mma climb, I ain't waitin'
There's no end to the money I'm makin'
For streetin', for chasin' we get it in
Might, might be the crunk hatin' If ya don't believe you don't succeed
And if ya don't apply you won't achieve
Keep ya head up high, feet down low
And follow your heart to get to the door If there is a will, here's a way
Never trust a soul I'm here to say
Stop depending and be yourself
And grab a hold and don't look left So take a swing now here's your chance
You got nothing to lose, make a stance
See the clock is tickin' and time ain't waitin'
When ya all alone see that's what you're facin' I'mma shine, I'mma make it
It ain't nothing to it, to it, I'll take it
I feel it, I'll flip it
Pull it, pull it till straight get it I'mma climb, I ain't waitin'
There's no end to the money I'm makin'
For streetin', for chasin' we get it in
Might, might be the crunk hatin' Ya I know I'mma make it, I was meant for this
I'mma with ya in the eye lookin' for the ten for this
And I don't steal I pimp for this
Ride round with a hundred round clip for this What happened to the struggle, it's called eviction notice
Now people strong self eviction notice
Prescription cops serve keep it real and fine
But if I get caught with it I'll face some time And it's hard being young and rich trying to survive
Trying to keep a shot to shine on the poor headed ties
Couple mill and I buy new whip for the wife
Talk that shit but this is my life I'mma shine, I'mma make it
It ain't nothing to it, to it, I'll take it
I feel it, I'll flip it

Pull it, pull it till straight get it I'mma climb, I ain't waitin'
There's no end to the money I'm makin'
For streetin', for chasin' we get it it
Might, might be the crunk hatin' I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it I'mma shine, I'mma make it
It ain't nothing to it, to it, I'll take it
I feel it, I'll flip it
Pull it, pull it till straight get it I'mma climb, I ain't waitin'
There's no end to the money I'm makin'
For streetin', for chasin' we get it in
Might, might be the crunk hatin' I'mma shine, I'mma make it
It ain't nothing to it, to it, I'll take it
I feel it, I'll flip it
Pull it, pull it till straight get it I'mma climb, I ain't waitin'
There's no end to the money I'm makin'
For streetin', for chasin' we get it in
Might, might be the crunk hatin', I'mma shine I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it, I'mma shine I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
And you gonna get it and you gonna feel it I'm gonna get it and we gonna get it
And you gonna feel it and you gonna get it
I'm gonna get it and we gonna get it
