

Control

I Was Totally Destroying It

I can feel the earth below
Start to crease, start to bend and bow
 But we can roll on
Close the shutters, draw the drapes
 There's trouble 'round the bend
The house will start to pitch and shake
 But I want to join right in
Because in my dreams I live so wildly
 But only I can take control
 We roll on
I can feel our mouths collide
 All calamity aside
 So we can roll on
Close the shutters, draw the drapes
 There's trouble 'round the bend
The house will start to pitch and shake
 But I want to join right in
Because in my dreams I live so wildly
 But only I can take control
 We roll onâ€
 Take control...
