

# Out of Its Misery

[Michael Penn](#)

That's the way it goes  
you're going to have to  
see it through eventually  
listen, I propose that  
everybody show  
some sort of sympathy  
'cause all the highs and lows  
are really wearing out  
its elasticitythere's no bouncing back  
no recovery  
put it out of its miseryIf you take my devotion  
and figure it as something  
you're due to accrue  
it's only emotion  
winding up the motion  
we are going through  
and don't it break your heart  
to watch its little quiver  
on the avenue'til it's crawling back  
on its only knee  
put it out of its misery  
I can hear mercy mercy me  
letting this go on and on and on  
endlessly
