Threat Signal

see through the face of a thousend lives, examinewhat you're shown
mass media will hide the thruth - don't belive what you're told
their hidden agend a decides the way we live our lvies
deception clouds your mind, now open your fucking eyes

Chorus:

now we all must fight, and take back our lives
now it's do or die - aggression is justified

its your will for appression that leads us to die in vain
we are the countless deceased laying buried
beneath your flag

see through the pain of a thousend eyes
acknowledge what you stole
our nation build on lies won't stand for this anymore
another fallen victim dies
for what they thought was right
regression build inside
now open your fucking eyes

hate - we will not enslave ourselves
we must save population
take back all your rights
