Threat Signal

see through the face of a thousand lives, examine what you're shown
mass media will hide the truth - don't believe what you're told
their hidden agenda decides the way we live our lives
deception clouds your mind, now open your fucking eyes

Chorus:

now we all must fight, and take back our lives
now it's do or die - aggression is justified

it's your will for oppression that leads us to die in vain
we are the countless deceased laying buried
beneath your flag

see through the pain of a thousand eyes
acknowledge what you stole
our nation built on lies won't stand for this anymore
another fallen victim dies
for what they thought was right
regression built inside
now open your fucking eyes

hate - we will not enslave ourselves
we must save population
take back all your rights
