

# Red Eye

Amerie

You're tempting, so sexy  
Two understatement of what you are  
Come closer, here to me  
Together baby, we can go far Let me blow your mind sky-high  
Like mile-high  
So many things that we can try  
If you're not scared to fly I don't gotta be your only girl, I just wanna take you around the world  
And your seat's guaranteed  
Here we are just me and you and the door is closing soon  
So relax and be free And fly with me, just so you know now  
(Three)  
And fly with me, this is a red eye flight  
(Two)  
And fly with me, I know it's going down  
(One)  
And fly with me, so let's get it right  
(Take-off) We spent some time on conversation  
I think you know what it's time to do  
You feel me and I feel you  
Don't keep me waiting too long for you You don't want to miss this flight, not tonight  
Don't have no reservations  
I got your reservations  
Baby, come and take this trip, yeah I don't gotta be your only girl, I just wanna take you around the world  
And your seat's guaranteed  
Here we are just me and you, and the door is closing soon  
So relax and be free And fly with me, just so you know now  
(Three)  
And fly with me, this is a red eye flight  
(Two)  
And fly with me, I know it's going down  
(One)  
And fly with me, so let's get it right  
(Take-off) I can take you to where you wanna go  
And I'm giving you your very own ticket  
On this red eye, come and fly  
Baby, fly with me I can show you think that you haven't seen before, yeah  
But first thing I gotta know is if you're with it, yeah  
With this red eye, come and fly  
Baby, fly with me I don't gotta be your only girl, I just wanna take you around the world

And your seat's guaranteed  
Here we are just me and you, and the door is closing soon  
So relax and be free And fly with me, just so you know now  
(Three)  
And fly with me, this is a red eye flight  
(Two)  
And fly with me, I know it's going down  
(One)  
And fly with me, so let's get it right  
(Take-off) I don't gotta be your only girl, I just wanna take you around the world  
And your seat's guaranteed  
Here we are just me and you, and the door is closing soon  
So relax and be free And fly with me, just so you know now  
(Three)  
And fly with me, this is a red eye flight  
(Two)  
And fly with me, I know it's going down  
(One)  
And fly with me, so let's get it right  
(Take-off)
