

As We Move Forward

The Family Crest

My hands, they stand empty dear
My lips, spread to whisper clear
Oh, the words
Change is inevitable my young love
And as the past moves on
Dear it never goes So take up your pencil here
And write out the words you fear
But oh, my love
Oh just take a little more time, my young love
And oh, my dear, please be responsible As we move forward
With an open heart
We look backward
Searching for the start
The start, so we can piece this together Hope is an echo now
That lasts until the ending sounds
Out so loud
Until we give our last breaths out
And we close our eyes
To a waking dawn And here, here I'll always be
And dear, when you cry for me
Just recall, oh my love, you're the only one I love
And as the days move on
Dear, they never go As we move forward
With an open heart
We look backward
Searching for the start All of us are in this life together
All of us are in this spin forever
