

Can't Stop This Feeling I Got

Prince

Dear Dad,

Things didn't turn out quite like I wanted them to
Sometimes I feel like I'm gonna explode
Everybody want to see you down for the count
But that ain't what being a real man's about
The brave and the bold hang around for the kill
So the bigger the hole, the bigger we fill it (fill it!)
They can hit us with all they got
But cha know what?
What? I can't stop this feeling I got
I feel it right down to my toes
I can't stop this feeling I got
My body got to have it you know
I can't stop this feeling I got
I'll write a letter to the whole world
I can't stop this feeling I got
Every man, woman, boy and girl
Can't stop this feeling I got, I can't stop this feeling I got
I can't stop this feeling I got, I can't stop this feeling I got
I can't stop this feeling I got
You know I can't sleep at night
I can't stop, you know I love it a lot,
I'm talking about an everlasting light.
I can't stop this feeling I got
I get to shaking all in my shoes
I can't stop this feeling I got
The doctor say there's nothing that he can do
Can't stop this feeling I got, can't stop this feeling I got
I can't stop this feeling I got, can't stop this feeling I got
Keep on singing now
Can't stop try to tell me how to paint my palace,
That ain't where it's at,
That's like trying to tell Columbus that the world is flat.
If the song we're singing truly is the best
Then that my brothers is the ultimate test
All in favor say hey
We can change anything at all. I, I, I can't stop. can't stop.
I'm in a butt kicking mood tonight y'all
Can't stop. can't stop.
Can't stop this feeling I got [Repeat: x7]
(no, no, no, no)
Feeling, feeling, feeling, hey!
Hey, pardon me for living, (pardon me for living)
But this is my world, (this is my world)

You can't make me change (you can't make me change)
Maybe we all got to rearrange (rearrange)
Our brains (our brains) Yeah, only we can change the world
Only we can change the world
Only we can change the world One, two, one, two, three
I can't stop this feeling I got [Repeat: x3]
Feeling, feeling, feeling, feeling, feeling, feeling, yeah!
Yeah!
