

Strike Like Lightning

Mr. Big

Trip doors kicked all around me
There is no escaping
I slowly suffocate
I'm breathing poisoned air The living dead are outside feasting
On your souls
Infected followers now marching in
Their path Sudden explosion and the walls
Collapse before me
No longer prisoner
I have been released Headed towards chaos
Armageddon closing in
In search for clues that lead to
Solve this mystery Who's responsible for this?
There is death in every kiss
You are the one, bringer of the plague
(Your virus spread among them) Now you will pay, get on your knees
No time to waste, must annihilate
(Your virus spread among them)
Seal the gate, time to detonate Try to escape, I am surrounded
In all corners
The creatures that remain are
Gaining up on me Like lightning
I move fast and strike them
Where they stand, a light ahead of me
I've made it to the end Who's responsible for this?
There is death in every kiss
I'm the only one it missed
