I Just Want You

Aj Rafael

Theres something I gotta say to you
But im so afraid of what you'll doo
OhhhhI'll just admit this to you now
That Im stuck on you like glue somehowDon't wanna feel so cold inside
I wanna feel the warmth that I feel with you all the timeSurrounding me just like the wind
Cuz youre the one who makes me singHelp me find myself like how I found you oh
I need you so we can live happily too ohh
I just want youI wanna go out with you tonight
A picnic with candlelight
I might just hold you tightTell me you wanna be my queen
If not its ok a princess seems just my type I promise I'll be there tonight
I'll keep you warm in winter's white
And in the summer walks on beach sound nice
I want you now to talk with on the phone for hours at a time
Baby I just want you to be mine all minei wanna be ur valentine ur Christmas wish ur pickup line
I wanna be the one who knows about ur friends and foes and the tv shows you love
Look above the stars spell out ur name with an exclamation point at the end of the day ur the one who makes me say
