How Strong

Sheila Nicholls

Advisory - the following lyrics contain explicit language:

There's a nature we innately understand that we rarely listen toHow strong am I, I know the legacies I live within
How strong am I, to use what I've learned with discipline
How strong am I, to take this resistance and make it free
How strong are weCan you still hear me through all these distractions
And can you still see me tho all this smoke
And do you have purpose or you just paying off mortgage
And do you take rich drugs or poor drugs
To hide your ache for something moreHow strong are we, we know the legacies we live within
How strong are we, to meet each other through this division
How strong are we, to rise beyond these blinded leaders
How strong are weWho spent the money, and who pays the price
To not be responsible must be so nice
Did you hear about karma, and how it comes back
Too late to wear glasses when your sky turns blackHow strong are we, we know the legacies we live within
How strong are we, to meet each other through this division
How strong are we, to take this resistance and make it free
How strong are weThere's a nature we innately understand that we rarely listen to
