Please Wait

Baron Samadhi

Let's just say for the moment that I said to be quiet
when I know I'll be hoping that my wrongs will be right
lets just say, lets just say
I'm sorry, lets just be, let's just be
well, please wait for meI can't even tell you how much i need to see you, see you again
please do your part to be kind
'cause you know its my heart milking my mind
you would leave and i would stay
it's not like me to be this wayplease wait for me
i can't even tell you how much i need to see you, see you again
just wait for me
i can't even tell you how much i need to see you, see you again
my heart is breaking
my heart is shaking
its breaking
please, wait for me
i can't even tell you how much i need to see you again
