

Starts With One (Classixx Remix)

Shiny Toy Guns

Starts with one, I can't feel
It's all in your mind anyway
I can't heal
Make me feel this way Now there's two, I can't see
I've never felt this way
I can't feel
Anything anyway Let's show them
The only way
Let's show them
Our hearts, hearts Only three, I can't see
To get enough anyway
I can't speak
Nothing to say anyway Let's show them
The only way
Let's show them
Our hearts Let's show them
The only way
Let's sew up
Their hearts Distorted light moves in
Or am I mistaken? It feels so, feels so
Feels so cold
It feels so, feels so
Feels so cold There goes today
It slowly fades, slowly fades away
Here comes today
Never go, never go away, no
