I Still Luv You

Jasmine Trias

You know I still do
You know I still do
You know I still do
You know I still do
I can't see myself without ya
Late at night I think about ya
You know I still do
You know I still do
Gotta find a way
All that I can say
Is I still L-U-V you
Now come sit here and try to pretend
That the love I had for you has come to an end
Seeing you with someone else is gonna make me sick

Cause you're my man
And I'm your girl you're supposed to be with
I'm reminiscing back on the days
Before our little wishes made us go separate ways
You used to plant kisses all over my face
I'm thinking now (?)
You know I still do
You know I still do
I can't see myself without ya
Late at night I think about ya
You know I still do
You know I still do
Gotta find a way
All that I can say
Is I still L-U-V you
