Only Ghost

Dan Croll

I lost my way, I lost my way home
Strayed to far and wound up at your door
I lost my, I lost my way home
Strayed to far and wound up at the coastI love the wind and I love the rain
I love the coast but I've lost my only ghost
And your, your my only ghost
I love the wind and I love the rain
I love the coast but I've lost my only ghost
And your, your my only ghostYou called my name, you called my name out
Took the words I had right out my mouth
You called my name, you called my name out
Took my hand and showed me the way SouthAnd your, your my only ghost
