

Weakness (with Stevie Wonder)

Dionne Warwick

Every time I think our love is drifting apart
Something always throws it back together
And every time I think I've found someone new for my heart
After one kiss my heart tells me never[Chorus]
Oh everyone has got a weakness in life
Girl, you just happen to be mine
Oh everyone has got a certain weakness in life
Your love just happens to be mine Every time I think your love has no more to give
You do something more to take me higher
And every time I think that for someone else I could live
I'd be living love out as a liar[Chorus] We keep thinking that our love won't last beyond tomorrow
But our hearts say we're gonna stay in love this way[Chorus][Chorus]
