B Team

Marianas Trench

You could want this
See if it fits for a bit
And if you dont like it
Then you can go like you have been
And I'll never tell, never tell how I fell for it
I never fell before
3, 2, 1, you get right up and I'm the one done
You never say yes, not quite no
Say just enough to make me not go
You chose your words
Careful voice, in the end im not the first choice
You say you want someone just like me
So then why am I your plan
Why am I your plan
Why am I your plan B
You know You know You love the way I linger and
You keep me wrapped right around your finger
Buy you say, you say wait a bit longer and
In time, I could be the right one
Please, Im the B-Team
This could hurt some,
But if we don't never know what it's worth to ya
I saw you first

Do ya remember?
You play it well, victim sell
How I fell for it, How I fell before
You like to make me beg, yes you like it - You like to make me beg, Yes you do
You like to make me beg, yes you like it - You like to make me beg, Yes you do *you just like it*
You like to make me beg, yes you like it - You like to make me beg, Yes you do *you just like it*
You like to make me beg, yes you like it - You like to make me beg, Yes you do *you just like it*
You like to make me beg, yes you like it - You like to make me beg, Yes you do *you just like OH*
You like to make me beg, yes you like it - You like to make me beg, Yes you do
JUST SAY ENOUGH TO MAKE ME NOT GO
OH
you know you know
You love the way I linger and
You keep me wrapped right round your finger
But you say, you say just wait a little longer and

And in time I could be the right one
You know you, You love the way im lingering
You keep me wrapped right round your finger
But you say, you say just wait a little longer
And in time I could be the right one
Please Im The B-Team
