Sun Of A Gun

Oh Land

Once burned, twice shunned
Too much of your line made me blind
I'd wait all night
But you left one too many times
I wanna change my orbit
Don't care what you do now
I wanna live in darkness
Don't wanna be spun around
You go down, down, down
I fall out of love with you
Come back round, round, round
You sun of a gun
You go down, down, down
This time I won't save you
When you drown, drown, drown
You sun of a gun, you sun of a gun
Birds sing for you
You can make the blue sky blush
You've got them all fooled
But I am burned out on this rush
I wanna change my orbit
Don't care what you do now
I wanna live in darkness
Don't wanna be spun around

You go down, down, down
I fall out of love with you
Come back round, round, round
You sun of a gun
You go low, low, low
This time I won't save you
When you go, go, go
You sun of a gun, you sun of a gun
Red sky creeping
Disappearing
Bye, bye feeling
Heart you're stealing
You go down, down, down
I fall out of love with you

Come back round, round, round
You sun of a gun
You go down, down, down
This time I won't save you
When you drown, drown, drown
You sun of a gun, you sun of a gun
You sun of a gun, you sun of a gun
