Wheels Of Love

Emmylou Harris

The wheels of love turn around and around
Keep on rollin' 'til you've found
The perfect partner, somebody just right
To have and hold every day and every night
So, she's halfway to Texas with all of your dreams
The world ain't as bad as what it might seem
You got a whole lot of living, honey, left to do
There's still a whole lot of love inside of you
The wheels of love turn around and around
They'll take you for a ride like a merry-go-round
Don't let the heartache hold you down
When there's plenty of love left to be found
On the wheels, ridin' on the wheels of love
Catch you a ride, imagine what you might find
Just the right girl at just the right time
Ready and waiting, she'll look you in the eyes
Ah, but the wheels of love will never compromise

So, she broke your heart, honey, don't look back
You got to keep on rollin' down the track
And maybe the next time you'll keep your feet on the ground
When the wheels of love spin you around
The wheels of love turn around and around
They'll take you for a ride like a merry-go-round
Don't let the heartache hold you down
When there's plenty of love left to be found
On the wheels, ridin' on the wheels of love
The wheels of love turn around and around
They'll take you for a ride like a merry-go-round
Don't let the heartache hold you down
When there's plenty of love left to be found
On the wheels, ridin' on the wheels of love
Oh, the wheels, ridin' on the wheels of love
