

Beautiful Girl (feat. Kyle Pearce)

Junge Junge

Find another way
Say you stay, we can make it go away
Find another face
Then we'll play, we can play the game, again
Everything is falling into place
Everything is falling into place
Beautiful girl
Beautiful girl, beautiful girl If you wanna wait, I will wait
I'll be here for you
Nothing left to say
Now we're afraid that we don't make the same mistakes
Everything is falling into place
Everything is falling into place
Beautiful girl
Beautiful girl, beautiful girl
Beautiful girl
Beautiful, beautiful girl Find another way
Say you stay, we can make it go away
Find another face
Then we'll play, we can play the game, again
Everything is falling into place
Everything is falling into place
Beautiful girl
Beautiful girl, beautiful girl If you wanna wait, I will wait
I'll be here for you
Nothing left to say
Now we're afraid that we don't make the same mistakes
Everything is falling into place
Everything is falling into place
Beautiful girl
Beautiful girl, beautiful girl
Beautiful girl
Beautiful, beautiful girl
