

"Never More" Quote the Raven

Stonewall Jackson

Never more, never more
Never more quote the Raven, never more
Nothing hurts as strong as knowing you've done wrong
And not a thing will make it right again
I don't blame you for walking out the door
When you did that Raven flew right in
Never more quote the Raven never more
Your one big chance for love went out the door
Oh, please Raven tell me when she'll be back again
Never more quote the Raven never more
I said Raven what's my fate tell it to me straight
Can I mend that gentle heart I broke
Will I end up alone or will she come back home
The Raven thought a moment then he spoke
Never more quote the Raven
