

# Never Say My Name

## Vader

Since Your Rebirth  
I am always with You  
Deep in Your mind  
Creative, protective  
And never forget it...I was and I am  
In Your thoughts and Your breath  
I dwell in Your dreams  
I am Your Life and Your Death I stay with You  
Every day, every night  
You hear my whispers  
I am Your guide So never again  
Say my name aloud  
Protect what You've got  
And keep it away from the crowd
