

Wonderful

Ringo Starr

Some days are diamonds, some days are stone
Some days we need, to leave it alone
But when we look back, at how far we've come
We know we're in it, for the long run
The worst it ever was was wonderful
Better than I ever dreamed
The worst it ever was was wonderful
Cause it's always been you and me
And we made it through
The way we always do
Cause for me and you
The worst it ever was was wonderful
Each time I see you, I feel the same
It always gets better, the more we can change
No expectations, no room for doubt
There's never been trouble, we can't work out
The worst it ever was was wonderful
Better than I ever dreamed
The worst it ever was was wonderful
Cause it's always been you and me
And we made it through
The way we always do
Cause for me and you
The worst it ever was was wonderful
Each time I see you, I feel the same
It always gets better, the more we can change
No expectations, no room for doubt
There's never been trouble, we can't work out
The worst it ever was was wonderful
Better than I ever dreamed
The worst it ever was was wonderful
Cause it's always been you and me
And we made it through
The way we always do
Cause for me and you
The worst it ever was was wonderful
